Phone: (512)-893-9661
Email: defduy dinh@gmail.com
Git: dtd170004

EDUCATION

University of Texas at Dallas

Anticipated graduation: May 2021

Major: Computer Science - Cybersecurity / Information Technology

GPA: 3.40

SKILLS

Programming: C++, Java, JavaScript, Python, LaTeX.
Libraries: Python Requests, BeautifulSoup; C++ Inotify, TCLAP, Lex, Bison.
Additional skill: Bilingual, fluent in English and Vietnamese.
Experienced with computer hardware assembly and diagnostic.

PROJECTS

Financial Data Calculation and Analysis

Jan 2020 - Present

Personal Project

·
·

10-K Data Extraction for Data Analysis

May 2019 - Aug 2019

Personal Project

·

Daemon Information Logger

Apr 2019 - May 2019

UNIX Class

- Create a running daemon process to monitor and log actions of a watch folder.
- The project utilize Inotify kernel subsystem along with fork and exec commands in C++ to create a daemon child from parent function. After daemon started, it will go into idle mode while monitor watch directory.
